

4th Croatian Microscopy Congress

18th – 20th May 2022, Poreč, Croatia

SPONSORSHIP PACKAGES
AND OPPORTUNITIES

A close-up photograph of a man with a beard and glasses, wearing a white lab coat over a blue and white checkered shirt. He is looking intently through the eyepiece of a microscope. The background is a blurred laboratory setting with various pieces of equipment. The image has a light blue overlay.

The CMC 2022 will bring together nearly 100 researchers, industry representatives, and exhibitors from the Region and Europe, focusing on the recent methodological developments in microscopy and applications of the electron, light, and scanning probe microscopy in Biomedicine, Biology, Physics, and Chemistry of Materials, and related research fields.

About the Congress

We are pleased to announce and cordially invite you to join the 4th Croatian Microscopy Congress (CMC 2022) that will be held in Poreč, Croatia from 18th – 20th May 2022.

The Congress is jointly organized by the Croatian Microscopy Society and the Ruđer Bošković Institute, Zagreb (RBI) Croatia's leading scientific institute in the natural and biomedical sciences as well as marine and environmental research.

The CMC 2022 will bring together nearly 100 researchers, industry representatives, and exhibitors from the Region and Europe, focusing on the recent methodological developments in microscopy and applications of electron, light, and scanning probe microscopy in Biomedicine, Biology, Physics, and Chemistry of Materials, and related research fields. It will include invited, oral and poster presentations as well as industrial exhibitions.

Organizers

Scientific Committee

- Suzana Šegota, chair
- Igor Weber
- Andreja Gajović
- Jelena Macan
- Goran Kovačević
- Maja Herak Bosnar
- Maja Dutour Sikirić

Organizing Committee

- Danijela Poljuha, chair
- Vida Strasser
- Damir Sirovina
- Darija Domazet Jurašin
- Ina Erceg
- Ana Hant

Topics

Topics will include, but are not limited to:

Materials Science

- Nanomaterials and engineered nanostructures
- Thin films, coatings and surfaces
- Metals, alloys and metal matrix composites
- Ceramics and inorganic materials
- Polymers and organic materials
- Composite materials and hybrids
- Semiconductors and materials for information technologies
- Amorphous and disordered materials, liquid crystals, quasicrystals
- Magnetic, superconducting and ferroelectric materials
- Materials in geology, mineralogy and archaeology

Life Science

- Cells, tissues and organs in vivo, structure and function of cells and organelles,
- Structure of macromolecules and macromolecular assemblies, cellular transport and dynamics
- Microbiology and virology
- Plant science and mycology
- Environmental sciences
- Advances in immunohistochemistry and cytochemistry
- Embryology, development biology and neuroscience
- Symbiosis and biodiversity Morphometrics: from ultrastructure to ecology

Sponsorship Opportunities
